

SHAPING THE FUTURE OF INDUCTION

Global
Sales &
Service

Ajax TOCCO Magnethermic specializes in the application of induction heating technology for ship building operations. Induction heating technology reduces labor costs, reduces re-work, improves quality, and improves operator safety and comfort all without the use of combustion or radiant heat sources.

Induction Heating for Ship Building Applications

- Brazing / Soldering
- Forging
- Melting
- Heat Treating
- Coatings Removal
- Pre / Post Weld Heating
- Deck Straightening
- Bolting / General Purpose Heating
- Bonding / Curing
- Thermal Expansion
